

PERMIT TO BUILD

INTI – Indonesia Technology and Innovation 2026

Booth Construction Declaration

1. Project Information

Event	INTI – Indonesia Technology and Innovation 2026
Venue Hall	Hall A3
Booth Number	A3-478
Booth Size	6 x 3 meters
Maximum Booth Height	3.5 meters
Contractor	PT Loka Indira Amarta
Project PIC	Lukman Adji Wibowo
Phone	+62 813-8163-5537

2. Construction Scope

The contractor will construct a custom exhibition booth measuring 6 x 3 meters with a maximum height of 3.5 meters. The booth will be assembled using modular exhibition materials and finished on-site in accordance with the organizer's regulations.

3. Compliance Statement

We hereby declare that all booth construction activities will comply with the Technical Manual issued by the Organizer and the venue regulations of Jakarta International Expo (JIE expo). The booth design does not exceed the permitted height, does not obstruct emergency routes, and will be constructed by competent personnel following applicable safety requirements.

4. Safety Commitment

- All workers will wear appropriate Personal Protective Equipment (PPE).
- Construction activities will follow approved Safe Work Procedures.
- Electrical installation will be carried out only by the Organizer's appointed official contractor where required.
- All construction materials are suitable for exhibition use and will be installed safely.
- The work area will be kept clean throughout construction and dismantling.
- The contractor accepts responsibility for any damage caused by construction activities.

5. Declaration

We certify that the information provided in this Permit to Build is true and correct. The contractor agrees to comply with all organizer instructions and venue safety regulations throughout the exhibition period.
